

SANKE SILAS

Full-Stack Developer | Electrical & Electronics Engineer

Kaduna City, Nigeria | (+234) 810 341 1020

silassanke14@gmail.com | GitHub: github.com/sankzy | Portfolio: <https://sanke-silas-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Detail-oriented **Full-Stack Developer** with a Higher National Diploma (HND) in Electrical Engineering. Proven ability to build production-ready web applications using **Next.js, MongoDB, and Tailwind CSS**. Combines a background in complex electrical systems and data management with modern software development to solve real-world problems. Adept at managing project lifecycles via Jira and eager to contribute to a remote-first engineering team.

TECHNICAL SKILLS

- **Web Development:** Next.js (App Router), React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript.
 - **Backend & Database:** Node.js, MongoDB, Mongoose, Server Actions, REST APIs.
 - **Tools & DevOps:** Git, GitHub, Vercel Deployment, Jira (Proficient), Trello, Postman.
 - **Engineering Logic:** Problem-Solving & Debugging, Web Security Basics, Responsive Design, PLC Logic/Hardware Integration.
 - **Data Systems:** Data Management & Validation, Microsoft Excel (Pivot Tables, VLOOKUP), 85 WPM Typing Speed.
-

FEATURED SOFTWARE PROJECTS

Full-Stack Internship Tracker | Live Link: intern-job-tracker.vercel.app

Next.js, MongoDB, Tailwind CSS, Vercel

- Developed a full-stack dashboard to manage and track internship applications in real-time.
- Implemented **Next.js Server Actions** for efficient server-side logic and database communication.
- Designed a responsive UI using **Tailwind CSS** with color-coded status badges and dynamic filtering.
- Architected a NoSQL database schema using **MongoDB** to store application data securely.

Automated Security Light Control System (Engineering Project)

- Designed and fabricated an automatic control system using LDR sensors, relays, and LED logic.
 - Developed schematic and PCB layouts, demonstrating strong foundational logic used in software algorithms.
-

EXPERIENCE

Digital Bridge Institute, Abuja | *Value Added Service (VAS) Intern* | FEB 2025 – OCT 2025

- Implementing and customizing **Jira workflows** to drive team efficiency and project transparency.
- Managing project lifecycles and fostering collaboration across technical teams.

TELink Communication Limited, Kaduna | *Computer Operator & Data Entry* | SEPT 2019 – AUG 2023

- Managed database operations using MS Access and Excel, optimizing data retrieval speeds.
- **Award:** Received "Outstanding Performance Award" for consistent 90%+ accuracy in data management.

China Civil Engineering Construction Co. | *Marine Electrician* | OCT 2023 – JAN 2025

- Conducted complex troubleshooting of electrical systems, applying the same logic used in debugging code.
-

EDUCATION

Higher National Diploma (HND) in Electrical/Electronics Engineering

Kaduna Polytechnic, Kaduna | July 2021 – July 2023

National Diploma (ND) in Electrical/Electronics Engineering

Kaduna Polytechnic, Kaduna | Feb 2018 – Feb 2020

CERTIFICATIONS

- **Certificate in HTML5 & CSS3** – Pirple Academy
- **Artificial Intelligence (AI) with Python** – Great Learning Academy
- **Virtual Assistant Training** – Udemy
